

# SINGULAIR GREEN®

## You Asked, We Delivered

The Singulair Green tank is the strongest and most dependable high-density polyethylene tank in the industry. Our newly engineered tank provides optimal treatment system functionality and allows for system expansion. The cutting edge features of this system make installation and maintenance of expanded treatment systems quick and easy.

Additional transfer port features

Added connection points on inlet and outlet walls

Modified rib pattern allows for system expansion

### NEW SINGULAIR GREEN TANK FEATURES:

- ◆ The new design allows for a 450 gallon pump tank downstream of the system
- ◆ Optional connection points on inlet and outlet walls for attaching additional chambers upstream and downstream of the system
- ◆ Modified rib pattern provides interlocking capability to allow for the integration of additional tankage
